

UltraCard Upgrade Package for Renommee & Renommee PLUS

Add the power of the exciting new Bogart video editing environment with the new Casablanca Media Manager to your Renommee or Renommee Plus! With the new software and updated hardware architecture, you will enjoy vastly increased speed and powerfully creative new capabilities with your Renommee! With the addition of the PLUS option, your Renommee will be on par with the lightning-fast third generation S-Series of Casablanca Editors. And the upgrades adds a DVI output port that allows you to directly connect and edit your HD footage Natively on an HD TV (connected via either DVI or HDMI jack).

The UltraCard upgrade also allows you to add on a Blu-ray burner to your Renommee Plus! With more and more consumers moving to HD, this is the perfect addition to be ready for the future of the industry.

Bogart SE V2 features all of the benefits of Smart Edit 8, plus additions that take advantage of the new hardware architecture like the all new Media Manager and the soon to be released Twixtor motion adjustment software.

Media Manager for Bogart SE V2 will allow all S4000 & Renommee/PLUS UltraCard owners series owners to import and export video, audio and photo data on their Casablanca. These new formats can be brought in via CD, DVD or USB. Once a project is completed in Bogart, it can then be output to a wide array of specific formats such as for YouTube, iPod, or a multitude of cell phone models.

UltraCard Upgrade For Renommee and Renommee PLUS - \$999.00 MSRP

The UltraCard upgrade is designed for Renommee and Renommee PLUS and consists of the following components:

- UltraCard video board, incl. DVI monitor out and digital audio out
- Bogart SE system software
- Bogart SE OS V2
- Media Manager
- Faster Processing
- + Add Blu-ray and/or a 750 GB Hard Drive

With the switch from Smart Edit to Bogart SE Operating System, please note that not all Casablanca add-on software products are fully compatible. You can review the list of currently compatible software products on our website here: http://www.macrosystem.us/Software/Bogart_Compatibility.html

PLUS Upgrade - \$699.00 MSRP

Add PLUS to your Renommee to add the following components:

- New main board
- Powerful main processor on a par with the S-range of editors
- Modern 1024 MB RAM

With the PLUS upgrade, "normal" Renommees can achieve performance levels on a par with the Renommee PLUS or S-4000 systems. Rendering is up to 80% faster, allowing for fast editing workflow. HD editing in particular is considerably accelerated.

Blu-Ray burner - \$500 MSRP

The Blu-Ray burner is available only for PLUS machines that have the Ultra Upgrade and makes it possible to burn 25 GB Blu-ray discs. This is considerably more capacity for SD and HD footage. Compare: DVDs offer capacities of around 4,7 to 8,5 GB. Of course, the burner can also burn and read DVDs and CDs.

750 GB hard-drive (no sled included) - \$349.00 MSRP

The 750 GB hard-drive is available for Renommee and Renommee PLUS and offers enormous capacity for SD and HD footage. As the storage size required for HD footage, particularly from HDV or AVCHD cameras, is far higher than for SD, working with a larger hard-drive is recommended.

Hard Drive Sled - \$99.00 MSRP

Hard drive sled for Renommee or Renommee PLUS. If a sled is not purchased with the hard drive, the old drive will be replaced in the existing sled and the old drive returned to customer.
